**Verde Valley Volunteer Collective – V<sup>3</sup>C** – was born in a spirit of building on the tradition of volunteering that is already alive in the Valley. Our idea is to strengthen our web of connectedness by bringing attention and resources to developing the way we volunteer, and in so doing, strengthen the organizations which serve the community.

We invite organizations to join us – free of charge – to participate in and benefit from an online presence created to enhance volunteering throughout the region. From this initial offering, we plan to respond to requests for additional services by linking existing resources and developing new ones as needed. We invite your participation and your comments, and we thank you for the work you do!
